# I. GENERAL INFORMATION

**A. Background:** The HH Grouper assigns each claim into a Home Health Resource Group (HHRG) based on the reported claim and patient assessment information, including diagnosis codes. The International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) code set is updated annually, effective October 1. Each year, the Grouper contractor, 3M Health Information Systems (3M-HIS), develops a new HH Grouper software package to reflect these updates. Change Request 12303 implemented the 2021 annual diagnosis code update.

Additional HH Grouper updates may be needed in quarterly releases when HH rulemaking changes the casemix grouping policies or if additional ICD-10-CM diagnosis codes are created throughout the year. Change Request 12532 provided an April 2022 quarterly update to reflect new diagnosis codes. This change request provides the annual diagnosis code update for fiscal year 2022.

The HH Grouper and related documentation for each update is located on the Centers for Medicare & Medicaid Services (CMS) webpage at https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HomeHealthPPS/CaseMixGrouperSoftware. Current instructions regarding the HH Grouper are available in the Claims Processing Manual publication 100-04, chapter 10, section 80.

**B. Policy:** Version 03.3.22 of the HH Grouper shall be effective for claim from dates on or after October 1, 2022.
