

UPDATES TO THE MCBS CHARTBOOK

This page describes the process for future updates to the *2015-2020 Medicare Current Beneficiary (MCBS) Chartbooks*, effective February 2024.

Format Shift from MCBS Chartbook PDF to MCBS Chartbook Website

Beginning in 2024 following the release of the 2021 MCBS Survey File and Cost Supplement File Limited Data Set (LDS) data, the PDF versions of the 2015-2020 MCBS Chartbooks were replaced with an interactive Chartbook website available here: <https://data.cms.gov/medicare-current-beneficiary-survey-mcbs>. Most MCBS estimates from 2015 through 2020 can be found in both the online version of the MCBS Chartbook and the 2015-2020 MCBS Chartbook PDFs. Moving forward, only the online version of the MCBS Chartbook will be updated with new estimates.

Updates to the 2015-2020 MCBS Chartbooks

For the 2015-2020 MCBS Chartbook PDFs, Errata Notes were used to provide corrections to known erroneous or missing information on an ongoing, as needed basis. Due to the shift from the PDF to the website format, Errata Notes for the 2015-2020 MCBS Chartbook PDFs will be retired and corrections will be made only to the online version of the MCBS Chartbook. Moving forward, users should refer to the MCBS Chartbook website for the most up to date estimates: <https://data.cms.gov/medicare-current-beneficiary-survey-mcbs>.
