

Alternative NPRM 2022 Impact Factors File README

The Alternative Impact Factors file includes several worksheets with information related to the alternative proposal of using CY 2020 claims data for CY 2022 OPPS ratesetting.

- 1) Claims Accounting – these tables include claims counts related data processing discussed in Part 1 of the claims accounting narrative
- 2) Impact Table – an impact table that displays the effects of proposed changes but with a claims and cost report update under the historical process
- 3) Conversion Factor – displays the calculation of a CY 2022 OPPS conversion factor under the alternative proposal
- 4) Factors – OPPS budget neutrality and other impact factors based on the alternative proposal
