

Key Differences between Original Template and Revised Template

	Original		Revised Template
1	Cover Page	1	No change
2	Instructions	2	Added details for the non-Demonstration clinics; simplified organizational explanation; added detail about required stratifications; expanded explanation of case load characteristics; simplified instructions on section E (Adherence) because section E was simplified; explained the value of additional notes given experience.
3	Cover page BHC-Lead Measures for the CCBHC Demonstration Program	3	Terminology changed from BHC-Lead to Clinic-Collected
4	Case Load Characteristics	4	Using separate categories for sex (formerly called gender) and added optional Gender Identity. Both correspond to recent input from CMS.
5	I-EVAL	9	I-EVAL replaced with I-SERV. For this and almost all others in the revised version, there was reordering of worksheets within the workbook, addition of race and ethnicity stratifications, and reduction in what is required in section E (Adherence).
6	BMI-SF	x	Removed.
7	WCC-BH	16	WCC-CH (to reflect Medicaid Core Set) and is now optional. See bold in row 5 above.
8	TSC	15	Is now optional. See bold in row 5 above.
