
CMS Center for Consumer Information & Insurance Oversight (CCIIO), Health Insurance Exchange Public Use Files (Exchange PUFs) Data Dictionary for Qualified Health Plan Enrollee Experience Survey (QHP Enrollee Survey) Public Use File (PUF)

1. Overview of the QHP Enrollee Survey PUF

The Centers for Medicare & Medicaid Services (CMS) Center for Consumer Information & Insurance Oversight (CCIIO) publishes the Exchange PUFs to improve transparency and increase access to data on Qualified Health Plans (QHPs) and Stand-alone Dental Plans (SADPs) offered in the individual market and Small Business Health Options Program (SHOP). The PUFs include data from states with Federally-facilitated Exchanges (FEEs), which include states with State Partnership Exchanges (SPEs), and State-based Exchanges (SBEs) inclusive of State-based Exchanges on the Federal Platform [SBE-FPs]]. The Exchange PUFs also include data on certified off-exchange SADPs

The QHP Enrollee Survey PUF (ES-PUF) is one of the Exchange PUFs made available to the public and includes the QHP Enrollee Survey results for QHPs offered through the Exchange. This data dictionary describes the variables contained in the ES-PUF.

Each record in the ES-PUF represents a question or composite (the grouping of two or more selected question with related contents) score for a given Reporting Unit ID (i.e., the unique combination of issuer, state, and product type). Adjusted scores have been case-mixed adjusted via the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Macro.¹ Questions unable to be scored for a Reporting Unit ID due to missing or low numbers of responses or low responses are not included in the PUF as a result, Reporting Unit IDs do not always have the same number of records.² Reporting Unit IDs without valid survey responses are also removed from the file to protect issuer and patient information this PUF is de-identified.

Also, as described in the 2022 Payment Notice Final Rule, the PUF contains one row for each Reporting Unit that fielded the 2021 QHP Enrollee Survey, and one row for survey statistics produced by combining results from all Reporting Units, labeled as “National”. The National-level statistics are not reproducible due to the following:

- Overall Survey response rates, both at the Reporting Unit and at the National levels, cannot be reproduced because survey disposition information required to calculate response rates is not included in the PUF.

¹ Factors used in case-mix adjustment are education, general health rating, mental health rating, age, survey language, survey mode, whether taking medications for chronic illnesses, and whether received help responding to the survey.

² Questions relating to whether the enrollee received forms in the format needed or received an interpreter when needed have historically low response rates and are often not scored by the CAHPS® Macro.

- National-level scores cannot be reproduced due to unequal weighting of Reporting Units of varying sizes.
- National-level response counts cannot be reproduced for variables having Reporting Unit-level counts masked in accordance with CMS' small-cell size suppression policy.

For more information, please refer to the *QHP Enrollee Survey Public Use File Guide*.

2. Variable Attributes

SCORING QUESTIONS	
<i>Variable Name:</i>	ReportingUnitId
<i>Variable Definition:</i>	Unique combination of issuer ID, state, and product type (ex 99999-AZ-HMO)
<i>Data Type:</i>	Text
<i>Variable Label:</i>	Reporting Unit ID
<i>Allowable Values:</i>	Reporting Unit IDs determined to be survey data submission eligible in the 2021 QHP List, plus "National" for all Reporting Units
<i>Data Source:</i>	2021 QHP List
<i>Field Name from Data Source:</i>	Reporting_Unit_ID
<i>Comments:</i>	
<i>Variable Name:</i>	RESPONSE_RATE
<i>Variable Definition:</i>	Survey response rate, as calculated by AAPOR Equation 3
<i>Data Type:</i>	Numeric
<i>Variable Label:</i>	SurveyResponseRate
<i>Allowable Values:</i>	0-1
<i>Data Source:</i>	2021 Personal Level File
<i>Field Name from Data Source:</i>	RESPONSE_RATE
<i>Comments:</i>	
<i>Variable Name:</i>	N_COMPLETED_SURVEYS
<i>Variable Definition:</i>	Total count of Completed surveys
<i>Data Type:</i>	Numeric
<i>Variable Label:</i>	Count of Completed surveys
<i>Allowable Values:</i>	0 - 99,999
<i>Data Source:</i>	2021 Unit Level File
<i>Field Name from Data Source:</i>	ALLN
<i>Comments:</i>	Please see Technical Specification for definition of Completed surveys
<i>Variable Name:</i>	RATE_HP_SCORE_ADJ
<i>Variable Definition:</i>	Weighted case-mix adjusted score to question 20
<i>Data Type:</i>	Numeric
<i>Variable Label:</i>	Adjusted Score
<i>Allowable Values:</i>	Blank, 0 - 100
<i>Data Source:</i>	2021 Unit Level File
