**SUBJECT:   Announcement of August 2011 Software Release**

The Centers for Medicare and Medicaid Services (CMS) continues to implement software improvements to the enrollment and payment systems that support Medicare Advantage and Prescription Drug (MAPD) programs. This letter provides detailed information regarding the planned release of systems' changes scheduled for August 2011. This release focuses on improving CMS system efficiency and Plan processing.

Unless otherwise noted, the changes to the MARx Monthly Membership Report (MMR) described in this Release letter take effect with the MMR beginning October 1, 2011.

The August 2011 Release changes are as follows and may require Plan action:

1. **Number of Uncovered Months (NUNCMO) – Not Utilizing The RETRO Utility**
2. **Enhancements To The Marx Monthly Membership Report (MMR)**
3. **Eliminate The Demographic Payment And Blended Payment Components From Marx UI and Reports**
4. **New Enrollment Period, Election Type Code and Report To Track Use of New 5-Star SEP**
5. **Zip Code Reply Change**
6. **Uniquely Identify Payment Adjustments on User Interface (UI)/MMR Due To Cleanups**
7. **2012 Payment For In-Area Functioning Graft Beneficiaries**

### **1. Number of Uncovered Months (NUNCMO) – Not Utilizing The RETRO Utility**

The August 2011 Release changes the rules for the submission of a NUNCMO change transaction, Transaction Code 73 (TC 73). When submitting NUNCMO updates for previous enrollments, Plans no longer have to submit these via RETRO files, even if the beneficiary is not currently enrolled in their Plan. The Plan can submit these NUNCMO update transactions through the normal batch process.

The April 2011 Release allowed Plan users to update NUNCMO values using the MARx UI Update Premiums screen (M226). A Plan user may only update the NUNCMO value through the MARx UI for periods in which the beneficiary was/is enrolled in a Plan to which the Plan user has access. The Plan user is unable to use the MARx UI to update NUNCMO values retroactively for periods when the beneficiary was not enrolled in their Plan. The capability to update the other Plan's NUNCMO information is only available through batch processing.

### **2. Enhancements To The Marx Monthly Membership Report (MMR)**

To enhance the clarity and accuracy of the accounting data on the MMR Data File, the August 2011 Release adds effective Part A, Part B, and Part D monthly payment rates for both Prospective Payments and Adjusted Payments (fields 89, 90, and 91).

The Monthly Membership Summary Data File now includes a new Payment record where Record Description (field #5) = "LIPS", corresponding to prospective payment Low Income Premium Subsidy data. Three new adjustment records are added to the file with Record Descriptions as follows:

- "PYMT CORR", corresponding to the new ARC 44, retroactive correction of previously failed payments.
- "XRF MRG", corresponding to the new ARC 50, retroactive adjustment due to a cross-reference merge of HICNs.
- "CLNUP ADJ", corresponding to the new ARC 94, retroactive adjustment due to a cleanup.

The Monthly Membership Summary Report includes changes corresponding to those described above for the Summary Data File. Changes to the print format report appear in red.

The tables of Monthly Membership Layouts are attached:

**Attachment A: Monthly Membership Summary Data File layout**

**Attachment B: Monthly Membership Plan Summary Report Layout**

**Attachment C: Monthly Membership Detail Data File Layout**

### **3. Eliminate The Demographic Payment and Blended Payment Components From Marx UI and Reports**

The August 2011 Release eliminates the Demographic Payment and Blended Payment components from the MARx UI and reports when these components are not factored into the calculation of payments and payment adjustments. This enhancement affects screens in the MARx UI; the Beneficiary Snapshot (M203) screen and the Payment/Adjustment Detail (M215) screen. Modifications to the Monthly Membership Detail Report (MMDR) data file remove these components if they do not apply.

The table of the Monthly Membership Detail Data File Layout is attached:

**Attachment C: Monthly Membership Detail Data File Layout**

**4. New Enrollment Period, Election Type Code, and Report To Track Use of New 5-Star SEP**

CMS assigns Star Quality ratings to Plans. The August 2011 Release creates a Special Enrollment Period (SEP) for Medicare Advantage (MA), MAPD, and Prescription Drug Plans (PDP) Plans. The SEP (election type code 'R') allows Plans with a 5.0 Star Quality rating to enroll beneficiaries throughout the calendar year and outside of the standard enrollment periods. Plans may use the 'R' election type with batch or UI-submitted transactions.

The tables of the Daily Transaction Reply Report (TRR) Data File layout and TRC104 description are attached:

**Attachment D: Daily TRR Data File Layout**

**Attachment E: TRC 104 Description**

**5. Zip Code Reply Change**

A change in a beneficiary's Zip Code may occur independently of a change to their State and County Code. It may also result in the placement of a beneficiary into or out of a Plan area. Prior to this release, an SCC notification could indicate the change in the beneficiary's SCC or Zip Code. The August 2011 Release implements a Transaction Reply Code (TRC) 305 to indicate the change in a beneficiary's Zip Code. MA and MAPD Plans are notified when a Zip Code change occurs, when initiated using a batch transaction. Plans may see TRC 305 independently or paired with TRC 085 (SCC Change) and/or TRC 154 (Out of Area Status).

The tables of the TRR Data File layout and TRC305 description are attached:

**Attachment D: Daily TRR Data File Layout**

**Attachment F: TRC 305 Description**

**6. Uniquely Identify Payment Adjustments on UI/MMR Due To Clean-ups**

The August 2011 Release provides the capability to uniquely identify payment adjustments due to system clean-ups. Each non-routine payment adjustment resulting from a specific clean-up is uniquely identified with a Clean-Up Identifier. Identifiers appear on the Payment/Adjustment Detail (M215) screen and on the MMDR data file. The identifiers provide a convenient reference and linkage to documentation included in Plan communications from CMS, and enhance the Plan's understanding of a particular payment adjustment.

A new ARC (94) is used in conjunction with the Clean-up Identifiers to further isolate clean-up activity from routine payment adjustments.

The tables of the Monthly Membership file layouts and valid calculation methods mapped to applicable ARCs are attached:

**Attachment A: Monthly Membership Summary Data File layout**

**Attachment B: Monthly Membership Plan Summary Report Layout**

**Attachment C: Monthly Membership Detail Data File Layout**

## **7. 2012 Payment for In-Area Functioning Graft Beneficiaries**

The August 2011 Release changes the method of payment for In-Area Functioning Graft (post-transplant) Beneficiaries. Currently, there is no allowance in the payment to Plans based on Star Rating performance. This change allows the Plans to receive payment for In-Area Functioning Graft Beneficiaries based on Plan performance. The assigned Star Rating for each Plan is stored and the rating is used to adjust the payments for these beneficiaries. The actual payment changes take effect beginning January 2012.

CMS appreciates your continued support of the MAPD programs. Please contact the MAPD Help Desk for any issues encountered during the systems update process.
