-1012	Format	Fatal	Only the values listed in the "Item Values" table of the Detailed Data Specifications Report may be submitted for this item. The submitted value must be greater than or equal to the minimum value listed in the table and less than or equal to the maximum value listed in the table, or it must match one of the remaining special values (if any) that are listed in the table. The length of the submitted value must not exceed the allowed maximum length for the item. Signed numbers (with a leading plus or minus sign) are not accepted.
-1013	Format	Fatal	Formatting of Integer Numeric Items: Only integer values and the special values (if any) that are listed in the "Item Values" table of the Detailed Data Specifications Report are accepted for this item. Leading zeroes may be included or omitted from the submitted value as long as the resulting length of the string does not exceed the allowed maximum length for the item. A decimal point and decimal values are not allowed. The following examples are allowable if the value to be submitted is equal to [1] and the maximum length is equal to 2: [1], [01]. The following values are NOT allowed and will lead to a fatal error: [1.], [1.0], [01.], [01.0], [1.1], [01.1], [1.01].
-1025	Consistency	Fatal	For the first record that is submitted to correct or inactivate an existing record, A0055 (correction number) must equal "01". If that correction/inactivation is accepted and if a subsequent correction/inactivation is required A0055 must equal "02", and so on. If the value submitted in A0055 is incorrect, a fatal error will result and the submitted record will be rejected.
-1026	Consistency	Fatal	If A0050=[1], then A0055 (correction number) must equal [0].
-1036	Consistency	Fatal	If A0050 = [2,3], then A0055 must not be equal to [0].
