Chapter	Section	Page	Change
3	I	I-3 & I-4	<p>2. <b>Determine whether diagnoses are active:</b> Once a diagnosis is identified, it must be determined if the diagnosis is <b>active</b>. Active diagnoses are diagnoses that have a <b>direct relationship</b> to the resident's current functional, cognitive, or mood or behavior status, medical treatments, nursing monitoring, or risk of death during the 7-day look-back period. <del>Do not include conditions that have been resolved or have no longer affected the resident's current functioning or plan of care, or that the resident has adjusted to as their "new normal," during the last 7 days.</del> Do not include conditions that have been resolved, do not affect the resident's current status, or do not drive the resident's plan of care during the 7-day look-back period, as these would be considered inactive diagnoses.</p> <ul style="list-style-type: none"> <li>Item I2300 UTI, has specific coding criteria and does not use the active 7-day look-back. Please refer to Page I-8 for specific coding instructions for Item I2300 UTI.</li> </ul>
3	I	I-4	<p><b>Coding Instructions</b></p> <ul style="list-style-type: none"> <li>If a disease or condition is <b>not</b> specifically listed, enter check the "Other" box (I8000) and write in the diagnosis and the ICD code and name for that diagnosis in item I8000, Additional active diagnoses.</li> </ul>
