Data Crosswalk - January 2025 (2025-01)

This "Data Crosswalk" of BPIDs/NPIs/CCNs identifies the BPCI Advanced Model Participants and the Episode Initiators (EIs) implementing the Model that have had Clinical Episodes attributed during Reconciliation. The Attending NPI and Operating NPI of Participating Practitioners are critical elements for attributing Clinical Episodes during the Reconciliation process.

The data file contains the following variables: Model Participant BPID **(PARENT_BPID)**; Episode Initiator BPID **(EI_BPID)**; Model Year **(MODEL_YEAR)**; Performance Period **(PERFORMANCE_PERIOD)**; Anchor Hospital CCN **(ANCHOR_PROVIDER)**; Attending NPI **(ANCHOR_AT_NPI)**; Operating NPI **(ANCHOR_OP_NPI)**; Anchor Type **(ANCHOR_TYPE)**.

The Data Crosswalk file will be updated after each Reconciliation cycle (approximately every six months) and will include information for Performance Periods that have completed the 2nd true-up.

The January 2025 Data Crosswalk update, in comparison to the August 2024 version, reflects the inclusion of Performance Period (PP) 9 and includes Clinical Episodes reconciled in the following Performance Periods (PP):
- PP1 (October 2018 – June 2019)
- PP2 (July 2019 – December 2019)
- PP3 (January 2020 – June 2020)
- PP4 (July 2020 – December 2020)
- PP5 (January 2021 – June 2021)
- PP6 (July 2021 – December 2021)
- PP7 (January 2022 – June 2022)
- PP8 (July 2022 – December 2022)
- PP9 (January 2023 – June 2023)

The names of the entities participating in the Model can be identified by their BPIDs in the following resources available on the Model's website – Main Page (MY3-MY6) and Archived Materials (MY2).
