

60-day Federal Register Crosswalk: High Level Summary of Revisions

The current Coverage Decision Letter expires 11/2025. We have made minor updates to the letter that are listed below. The Coverage Decision Letter is issued to applicable integrated plan enrollees when a request for a service or item is denied. The changes will not result in additional burden.

Section	Change/Reason
Throughout the document	We updated the term “Part B drug” to “Medicare Part B drug” throughout the document to differentiate it from a Medicaid drug.
Second paragraph	We changed the term “partially denied” to “partially approved” for consistency with the Medicare Advantage integrated denial notice.
Section titled: There are two kinds of appeals	For the standard appeal timeframe, we clarified the 7-calendar day timeframe only applies to a Medicare Part B drug not yet received.
