NOTES: The following Current Price Index was used to adjust expenditures for 2002 dollars: U.S. City Average, All Urban Consumer, Medical Care Series Total (CUUR0000SAM).

Some restricted-benefit enrollees may be included in the 1999 and 2000 estimates in Table A3.16. Because restricted-benefit enrollees have lower average expenditures than full-benefit enrollees, the presented estimates may underestimate 1999 and 2000 costs.

- = not applicable; FFS enrollees = full-benefit Medicaid enrollees who never enrolled in comprehensive Medicaid managed care plans (HMOs/HIOs) in 2002; HMO/HIO = health maintenance organization or health insuring organization.

NOTE: Some restricted-benefit enrollees may be included in the 1999 and 2000 estimates in Table A3.17. Because restricted-benefit enrollees have lower average expenditures than full-benefit enrollees, the presented estimates may underestimate 1999 and 2000 costs.

- = not applicable; FFS enrollees = full-benefit Medicaid enrollees who never enrolled in comprehensive Medicaid managed care plans (HMOs/HIOs) in 2002; HMO/HIO = health maintenance organization or health insuring organization.

NOTE: In Kansas, the reported number of duals enrolled in Medicaid managed care was larger than expected. This and other unusual MAX data findings have been documented in the MAX anomaly reports, which are available on the MAX website at the following link:

http://www.cms.hhs.gov/MedicaidDataSourcesGenInfo/07_MAXGeneralInformation.asp

Dual = enrolled in both Medicare and Medicaid in at least one month in 2004; HMO/HIO = health maintenance organization or health insuring organization; PCCM = primary care case management; PHP = prepaid health plan.

NOTE: Duals enrolled in Pharmacy Plus programs, which cover only prescription drugs, are included among full-benefit FFS enrollees in Florida, Illinois, Vermont, and Wisconsin. This may lead to overestimates of total FFS enrollees and underestimates of per-enrollee expenditures in these states.

**FFS duals represent less than 50 percent of all full-benefit duals in this state. *FFS duals represent less than 75 percent of all full-benefit duals in this state.

Dual = enrolled in both Medicare and Medicaid in at least one month in 2004; FFS duals = full-benefit dual enrollees who never enrolled in comprehensive Medicaid managed care plans (HMOs/HIOs) in 2004; IP = inpatient; ILTC = institutional long-term care; Rx = prescription drug; Other = all services other than IP, ILTC, and Rx.

NOTE: Duals enrolled in Pharmacy Plus programs, which cover only prescription drugs, are included among full-benefit FFS enrollees in Florida, Illinois, Vermont, and Wisconsin. This may lead to overestimates of total FFS enrollees and underestimates of per-enrollee expenditures in these states.

**FFS duals represent less than 50 percent of all full-benefit duals in this state. *FFS duals represent less than 75 percent of all full-benefit duals in this state.

Dual = enrolled in both Medicare and Medicaid in at least one month in 2004; FFS duals = full-benefit dual enrollees who never enrolled in comprehensive Medicaid managed care plans (HMOs/HIOs) in 2004; IP = inpatient; ILTC = institutional long-term care; Rx = prescription drug; Other = all services other than IP, ILTC, and Rx.
