NAME	LENGTH	BEG	END	CONTENTS
1. HCPCS Code	5	1	5	<p>The Health Care Common Procedure Coding System (HCPCS) is a collection of codes that represent procedures, supplies, products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs. The codes are divided into three levels, or groups as described below:</p> <p>Level I Codes and descriptors copyrighted by the American Medical Association's Current Procedural Terminology, Fourth Edition (CPT-4). These are 5 position numeric codes representing physician and nonphysician services.</p> <p>**** Note: **** CPT-4 codes including both long and short descriptions shall be used in accordance with the CMS/AMA agreement. Any other use violates the AMA copyright.</p> <p>Level II Includes codes and descriptors copyrighted by the American Dental Association's Current Dental Terminology, Third Edition (CDT-3). These are 5 position alpha-numeric codes comprising the D series. All other level II codes and descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of CMS, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha-numeric codes representing primarily items and nonphysician services that are not</p>

represented in the level I codes.

Level III

Codes and descriptors developed by Medicare carriers for use at the local (carrier) level. These are 5 position alpha-numeric codes in the W, X, Y or Z series representing physician and nonphysician services that are not represented in the level I or level II codes.

2.	HCPCS Initial Modifier Code	2	6	7	A first modifier to the HCPCS procedure code to enable a more specific procedure identification for the line item service on the noninstitutional claim.
3.	Provider Specialty Code	2	8	9	CMS specialty code used for pricing the line item service on the noninstitutional claim.
4.	Carrier Number	5	10	14	The identification number assigned by CMS to a carrier authorized to process claims from a physician or supplier.
5.	Pricing Locality Code	2	15	16	Code denoting the carrier-specific locality used for pricing the service for this line item on the carrier claim (non-DMERC). For DMERCs, this field contains the beneficiary SSA State Code
6.	Type of Service Code	1	17	17	Code indicating the type of service, as defined in the CMS Medicare Carrier Manual, for this line item on the non-institutional claim.
