Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

- 1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.
- 2 The percentage of responses for "none" under "Usual Source of Care" differs from the percentage of responses for "no usual source" under "Length of Association with Usual Source of Care" because of differences in the number of missing responses for the two variables. See the entry *Missing values* in Appendix B for further explanation.
- 3 HMO stands for Health Maintenance Organization.
- 4 OPD stands for Outpatient Department; ER stands for Emergency Room.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview.

It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

2 Column percentages do not sum to 100 percent because the responses of "satisfied" and "no experience" are excluded from the table for all satisfaction variables.

3 Beneficiaries whose response to the question was 'very satisfied'.

4 Beneficiaries whose response to the question was 'unsatisfied' or 'very unsatisfied'.

Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

The percentage of responses for "None" under "Usual Source of Care" differs from the percentage of responses for "No usual source" under "Length of Association with Usual Source of Care" because of differences in the number of missing responses for the two variables. See the entry *Missing values* in Appendix B for further explanation.

HMO stands for Health Maintenance Organization.

OPD stands for Outpatient Department; ER stands for Emergency Room.

Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

- 1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.
- 3 Column percentages do not sum to 100 percent because the responses of "satisfied" and "no experience" are excluded from the table for all satisfaction variables.
- 4 Beneficiaries whose response to the question was 'very satisfied'.
- 5 Beneficiaries whose response to the question was 'unsatisfied' or 'very unsatisfied'.
- 6 Total includes persons of other race/ethnicity and persons who did not report their race/ethnicity.

Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

2 Column percentages do not sum to 100 percent because the responses of "satisfied" and "no experience" are excluded from the table for all satisfaction variables.

Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

The percentage of responses for "None" under "Usual Source of Care" differs from the percentage of responses for "No usual source" under "Length of Association with Usual Source of Care" because of differences in the number of missing responses for the two variables. See the entry *Missing values* in Appendix B for further explanation.

HMO stands for Health Maintenance Organization.

OPD stands for Outpatient Department; ER stands for Emergency Room.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

- 1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.
- 2 Column percentages do not sum to 100 percent because the responses to "satisfied" and "no experience" are excluded from the table for all satisfaction variables.
- 3 Beneficiaries whose response to the question was 'very satisfied'.
- 4 Beneficiaries whose response to the question was 'unsatisfied' or 'very unsatisfied'.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

- 1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.
- 2 "Indicators of Good Health" and "Indicators of Poor Health" do not contain mutually exclusive categories. Therefore, beneficiary counts sum to more than the total number of Medicare beneficiaries.
- 3 "No Functional Limitations" means that the beneficiary did not report limitations in any instrumental activities of daily living (IADLs) or activities of daily living (ADLs). See Appendix B for definitions of IADL and ADL.
- 4 ADL stands for Activity of Daily Living.
- 5 The percentage of responses for "None" under "Usual Source of Care" differs from the percentage of responses for "No usual source" under "Length of Association with Usual Source of Care" because of differences in the number of missing responses for the two variables. See the entry *Missing values* in Appendix B for further explanation.
- 6 HMO stands for Health Maintenance Organization.
- 7 OPD stands for Outpatient Department; ER stands for Emergency Room.

Source: Medicare Current Beneficiary Survey

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview.

It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

2 "Indicators of Good Health" and "Indicators of Poor Health" do not contain mutually exclusive categories. Therefore, beneficiary counts sum to more than the total number of Medicare beneficiaries.

3 "No Functional Limitations" means that the beneficiary did not report limitations in any instrumental activities of daily living (IADLs) or activities of daily living (ADLs).

See Appendix B for definitions of IADL and ADL.

4 ADL stands for Activity of Daily Living.

5 Column percentages do not sum to 100 percent because the responses for "satisfied" and "no experience" are excluded from the table for all satisfaction variables.

6 Beneficiaries whose response to the question was 'very satisfied'.

7 Beneficiaries whose response to the question was 'unsatisfied' or 'very unsatisfied'.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

- 1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview. It excludes beneficiaries who resided in a long-term care facility at the time of their interview.
- 2 "Indicators of Good Health" and "Indicators of Poor Health" do not contain mutually exclusive categories. Therefore, beneficiary counts sum to more than the total number of Medicare beneficiaries.
- 3 "No Functional Limitations" means that the beneficiary did not report limitations in any instrumental activities of daily living (IADLs) or activities of daily living (ADLs). See Appendix B for definitions of IADL and ADL.
- 4 ADL stands for Activity of Daily Living.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

The term *community-only residents* includes beneficiaries who resided only in the community during the year. It excludes beneficiaries who resided part of the year in the community and part of the year in a long-term care facility, and beneficiaries who resided only in a long-term care facility during the year.

The percentage of responses for "None" under "Usual Source of Care" differs from the percentage of responses for "No usual source" under "Length of Association with Usual Source of Care" because of differences in the number of missing responses for the two variables. See the entry *Missing values* in Appendix B for further explanation.

HMO stands for Health Maintenance Organization.

OPD stands for Outpatient Department; ER stands for Emergency Room.

Note: Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

1 The term *community-only residents* includes beneficiaries who resided in the community at the time of their interview.

It excludes beneficiaries who resided in a long-term care facility at the time of their interview.

2 HMO stands for Health Maintenance Organization.

3 Column percentages do not sum to 100 percent because the responses to "satisfied" and "no experience" are excluded from the table for all satisfaction variables.

4 Beneficiaries whose response to the question was 'very satisfied'.

5 Beneficiaries whose response to the question was 'unsatisfied' or 'very unsatisfied'.
