DESIGN NOTES

If the SP belongs to a managed care plan (HMO), we ask each provider selected/added if the provider is associated with an HMO. This question, which is asked throughout utilization and cost series, is only asked once in the study for each provider. The response is never updated. (This design may change in the future).

If the SP belongs to an HMO, and we have not asked this question for this provider, HMOASSOC=empty, you are to HMOASSOC. If we have already asked this question about this provider, and the provider responded to HMOASSOC=No, DK or RF, you are routed to HMOREFER, skipping HMOASSOC, to determine if the SP was referred to this provider by their HMO.

If SP does not belong to an HMO or this provider already reported being associated with the HMO, you are routed directly to the event roster.
