

Table 75
Percent of Medicare Population with Access to at Least One
Medicare + Choice (M+C) Risk (1993-2003), M+C Private
Fee-for-Service (PFFS) (2000-2003), or M+C Plan of Either Type (2000-2003)

| Year | Population with | Population with | Population with |
|------|---------------------|------------------------------|-------------------------|
| | Risk/M+C CCP Access | M+C PFFS Access ¹ | M+C Plan of Either Type |
| | | Percent | |
| 1993 | 49 | --- | 49 |
| 1994 | 57 | --- | 57 |
| 1995 | 61 | --- | 61 |
| 1996 | 68 | --- | 68 |
| 1997 | 72 | --- | 72 |
| 1998 | 74 | --- | 74 |
| 1999 | 72 | --- | 72 |
| 2000 | 69 | 38 | 84 |
| 2001 | 63 | 38 | 82 |
| 2002 | 62 | 36 | 79 |
| 2003 | 59 | 36 | 79 |

¹PFFS became available in 2000.

NOTES: CCP is coordinated care plan. --- is not applicable.
