2011	100.0	9.0	(5)	(5)	32.1	24.0	0.5	48.3

<sup>1</sup>The total persons served (beneficiaries) includes users of any type of services reported on the HCFA Form-2082 and in the Medicaid Statistical Information System (MSIS). A person receiving multiple services (e.g., inpatient hospital, physician, and outpatient services) is included once in the user count for each type of service and once in the total.

<sup>2</sup>Data shown include services shown separately in earlier years as skilled nursing facility (SNF) and intermediate care facilities (ICF-other). Beginning in fiscal year 1991, the conditions of participation for SNFs and ICF-other were unified, the distinction between them removed, and the services renamed nursing facility services. It is possible that the combined number of recipients includes some persons who used both types of nursing facility care during the reported fiscal year. This could inflate the number of users and lower the average payments per recipient.

<sup>3</sup>Trends in home health agency beneficiaries (persons served) and program expenditures are not strictly comparable to 1997 and prior because of changes in the definitions of related categories of service. Reporting for 1998 added categories of service for personal care support services and home and community-based waiver services (category not shown separately in table). In 1999 the home and community-based waiver services were reclassified into the other related categories of service (category not shown separately in table).

<sup>4</sup>Less than 500 users.

<sup>5</sup>Less than 0.05 percent.

NOTES: Beginning fiscal year 1998, a Medicaid-eligible person who during the year, received only coverage for managed care benefits was included in this series as a person served (beneficiary). ICF/MR is Intermediate care facility for the mentally retarded. The beneficiary counts reported for 2011 include last reported 2010 counts of beneficiaries for Maine, Oklahoma, Kansas, Utah, and Idaho.
