<sup>1</sup>Includes all eligibility groups reported on the HCFA Form-2082 and the Medicaid Statistical Information System (MSIS), some not shown separately.

NOTES: Beginning fiscal year 1998, capitated premiums for Medicaid eligibles enrolled in managed care plans were included in this series as a component of the total payment per person served (beneficiary). Dollar amounts are adjusted using a personal consumption expenditure index for health care services, U.S. Department of Commerce, Bureau of Economic Analysis (BEA), expressed in fiscal year 2008 dollars. With the release of the comprehensive revision of the national accounts in July of 2009, BEA introduced a new classification system for Personal Consumption Expenditures (PCE). With the new classification system and the release of the comprehensive revision estimates, components of medical care were changed, and the base year was updated to the year 2005. PCE health care services now exclude eye exams (currently classified in PCE goods under corrective eyeglasses and contact lenses), and net health insurance (now classified under insurance services). As a result of the PCE classification change, all PCE series were restated for the entire historical period to reflect the new PCE classification structure.
